

PICKRICK SAYS:

Thanks, again, Georgians for your letters, calls, visits and support. You continue to increase in number and you are coming from all areas of this great state. We are grateful for your endorsement of our food, service, prices and our stand for the American Free Enterprise System. The Pickrick is operated as you have approved and so long as our doors are open we will continue to do so, regardless of the race mixers—who they are, or where they come from.

LESTER MADDOX

AND THANKS

to our faithful and dependable employees who have helped so very much in making the Pickrick a success. We are grateful for your looking after the large increase in business (resulting from a few of the mistaken restaurant operators surrendering to the race mixers—I understand some of them have their backs to the wall and will probably return to a policy of segregation soon) during the summer, and as an expression of our appreciation we are going to be closed Labor Day and give you the day off with full pay. In addition, we commend our Negro waiters for doing a wonderful job. Many of our customers say that you are the most efficient, polite and courteous waiters in Atlanta. Thanks for the good job.

SPECIAL NOTE: Neither Lester Maddox, nor the Pickrick, has any connections with any proposed weekly newspaper. Don't be misled.

AND CONGRATULATIONS

and commendations to the Board of Directors of the Georgia Junior Chamber of Commerce for your strong resolution in opposition to the civil rights-public accommodations bills pending before the U. S. Congress. WE ARE PROUD OF YOU YOUNG LEADERS OF OUR STATE.

THE WASHINGTON MARCH

proved that the Communists have gained a stronghold in labor, religion and government. It also proved that the movement is not one that is Christian, American, nor is it a movement for equality, but has turned into a fight against the white race. White renegades in public office, education, religion, labor, the news media and in business are guilty and the blood to be shed will be on their hands.

AND WE WANT

all readers to know that parts of our ads, we feel should be printed, are refused by the newspapers. It's their business and as part of the Free American Enterprise System they have the right to do so, but I still don't like it. But I can tell you that a large national company, headquartered in Atlanta, recently forced white lady employees to take a new negro employee to lunch, with the instructions: "Be sure that many other people see you together." How cruel will man get for a dollar? And I can't tell you who it is but the next time a certain company that has replaced a white employee with a negro on a coin collection job sends him into the Pickrick for the coin box, then the company can send a truck to pick up the equipment.

I DON'T

believe that public officials who do wrong in office should be placed on probation. If they are right, keep them in office. If they are wrong, they should be kicked out of office. And to the investigators: What about employees who lost their jobs? Will they be brought back and placed on probation? What about the ones who received the "blood money," will they be placed on probation? And Mr. Investigator, what about the tens of thousands of dollars belonging to the taxpayers that was spent in labor, material and equipment for political campaigns? And while you are at it, look up the definition of honesty, sincerity and efficiency. When you find the definitions, please pass along to top city, state and federal officials, as they have gone astray.

QUESTIONS

Driver watches negro youth throw rock from expressway bridge. Rock breaks out windshield of driver's car and police tells him, "We can't do anything about it, they do it all the time." Why so, Chief, why Mayor? Are you afraid?

Knowing that the Communists are using our negro (and some white) churches to stir racial discord and set up the demonstrations (sit-ins, wade-ins, pray-ins, lay-ins, etc.) will our President, other public officials, publishers, etc., still try to deceive the American people by saying the movement is not Communist inspired, and often times Communist directed?

What happened to the mistaken and misguided who were running around Atlanta six and eight years ago, saying: "All they are asking for and all it will be is a little token integration"? Sure, you should be in hiding, you rascals. If any of you are man enough, woman enough or American enough, you will publicly ask the people of Atlanta and Georgia to forgive you for the wrong you have committed. You don't have the courage and I don't have any use for you. You stinkers!

When negro employees were caught after stealing over one hundred pairs of shoes from a military post just south of Atlanta—why were they not punished, tried or discharged? Why, Uncle Sam?

Why complain because we have to spend so much money on the Communist-inspired and Communist-supported "March on Washington," when we do the same thing for most of the agitators whether they be in Washington or back home? Most of them live off of welfare, unemployment funds, foundation funds, etc., and would not work if they had a job. They are a part of the American crowd that is being taught to do nothing and live off of the good Americans who work for a living. What a disgrace to a great country!
